OFFICE.—Old Clerk's Office Building,  
LOUISIANA, KENTUCKY.

Advertisements furnished a post application.

FRIDAY, FEBRUARY 17, 1893.

Lieut. Gov. Alford has called a special election for February 21 to elect a successor to ex-Senate Senator Lindsay.

A bill has passed the Minnesota House of Representatives making smoking of cigarettes a misdemeanor punishable by a fine of from \$25 to \$50, or by imprisonment for thirty days.

Justice takes some queer turns. In the Marion Circuit Court on the same day one man was sentenced to six years in the penitentiary for burglary, while another got off with only two years for killing his father.—C. J.

Instead of using a new Bible, according to the general custom, Mr. Cleveland was sworn in at his inauguration in 1885 with his mother's Bible, a small morocco copy, and it is understood he will use the same one in the approaching ceremony.

A Poll of Congress regarding Hawaii shows that 20 Senators favor annexation, 35 a protectorate and 25 are non-committal. In the House 83 Representatives favor annexation, 46 oppose it and 77 are non-committal.

The majority of the Democratic members of the Indiana House are opposed to the Governor's patronage bill passed by the Senate and have served notice on the Democratic members of that body that they will not participate in a joint caucus on apportionment bills until the Senate shows a disposition to respect their wishes.—C. J.

Hugh Mulholland, last April sentenced to serve one year in the Penitentiary, has received a full pardon from the President of the United States. Mulholland was Postmaster at Paducah, but was removed from office and sentenced to the Penitentiary for alleged robbery of the mails entrusted to his care.

The annual Pension bill, carrying an appropriation of \$166,000,000, the heaviest ever before Congress, came up in the House. Mr. Mutchler, in supporting the proposed changes in the system, said that reform in the granting of pensions must begin somewhere, and the committee had concluded that the time had come when the reform should be inaugurated.

All prospect of silver legislation at this session of Congress vanished yesterday when the House, by a majority of nine, refused to take up the bill repealing the Sherman act, by ordering the previous question. The Democratic and Republican members divided pretty evenly on the vote, but the ten Populists all voted with the silver men. The defeat is attributed, however, to the action of Republicans who, while favoring repeal, hope to embarrass the Democratic Administration.

President W. H. Dulaney, of the Board of the World's Fair Managers, has issued an address to the people of Kentucky stating that the board proposes to have a creditable display, in spite of the loss of valuable time caused by Auditor-Norman's pig-headedness. An appeal is made to all Kentuckians who have objects worth exhibiting to open correspondence with the Commissioners at once. Mr. Dulaney says most of the work is well under way, and Kentuckians will have no reason to be ashamed of their part in the World's Fair.

Convictions for selling a vote are as rare in Kentucky as indictments for participating in the work of a mob. Wolfe county, whose enviable reputation for enforcing the laws was recently mentioned in the Courier-Journal, has sentenced a vote-seller to disfranchisement for life. The public contempt and condemnation expressed in the verdict will be even more effective than the sentence itself in discouraging traffic in the suffrage, provided the sentence represents substantial public sentiment and is not a mere freakish spasm of righteousness. Our laws against bribery in elections are for the most part dead letters as the anti-gambling law, the anti-cigarrette law, the anti-trust law, the warehouse bill, and a long list of other measures whose enactment consumed valuable time, but which have never been enforced. The State will be entitled to congratulations if the Wolfe county outbreak of morality should become chronic and epidemic.—Courier-Journal.

Mrs. Josephine Henry's expectation of a woman supplanting one of the men on the Kentucky coat of arms seems possible of accomplishment without any change in the existing law on this important subject. Assistant Secretary of State Ed. Leigh has unearthed this old act of December 20, 1792, "to provide a seal for this Commonwealth."

"Be it enacted by the General Assembly that the Governor be empowered and is hereby required to provide, at the public charge, a seal for this Commonwealth, and procure the same to be engraved with the following device, viz: Two friends embracing, with the name of the State over their heads, and round about them the following motto: 'United we stand, divided we fall.'"

Nothing in that about man or woman; only "friends." Our practice in constructing the new Constitution would easily enable us to give to the word "embracing" a loose construction, so as to limit it to a respectful and deferential hand shake, as it would hardly do to have the representatives of the sovereign Commonwealth waiting around over the State seal with their arms about each other.—C. J.

It is said that five members of Mr. Cleveland's Cabinet have been decided upon, as follows: Secretary of State, Walter Q. Gresham; Secretary of War, Dan Lamont; Secretary of the Treasury, John G. Carlisle; Secretary of Agriculture, Hoke Smith; Secretary of the Interior, John D. Rockefeller.

LATER.—It is said that Mr. Cleveland has officially announced all the above except Hoke Smith.

It is the rule in Austria and Germany that all the members of the imperial family, boys and girls, shall learn a trade. On account of this the Queen of Spain was enabled to do a little unpremeditated act of cleverness which greatly added to her popularity with the working people. While visiting the famous factory of mosaics at Orto she stopped to watch one of the workmen for a few moments and then asked him to let her finish his job. Then taking his seat she completed in the most deft and workmanlike manner the mosaic he had commenced, according to the methods she learned when a little archduchess, with no idea of becoming a Queen.

When a mere boy the late Justice Lamar was apparently so dull that his mother was in despair of his ever becoming anything at school. A relative to whom she confided her fears took young Lucius in hand and catechized him as follows: "Can't learn Latin, eh?" "No, sir." "Or Greek?" "No, sir." "Or mathematics?" "No, sir." "What do you do in your debating society?" "O, I talk to the members. I don't think that very hard." "Then, sir, go back to school and learn how to talk, and how to talk well."

John D. Rockefeller, the many-time millionaire, is a deacon in the Fifth Avenue Baptist church, of New York, and passes the contribution box every Sunday.

Secretary of War Elkins inclines to the abolition of both the sword and the saber, on the ground that they are no longer of the slightest practical use in actual warfare.

Chauncey M. Depew says that he is without doubt the most enthusiastic member of the Masonic craft in New York city. "I think I would give up the pleasure of making an after-dinner speech," said he the other day, "to see the Third Degree worked."

Mr. Cleveland Surprised.

(St. Louis Republic Washington Letter.) Reliable information is to the effect that Mr. Cleveland is very much surprised at the show of hostility to the appointment (that of Judge Gresham) on the part of some of the Democratic members of Congress. He is said to have expressed himself disappointed that his selection of a Secretary of State should give rise to any bitterness in the party ranks.

Underpaid Cabinet Officers.

In truth, the compensation of Cabinet officers is entirely "out of scale," even with our system. A salary of \$8,000 for an office which requires that the incumbent shall have a good house and shall keep it open is pitifully small. The President is decently paid, with \$50,000 an official residence and the assumption by the public of some part of his household expenses. But he is not more decently paid, and his subordinates in the executive departments are not paid even decently.—New York Times.

The bill to prohibit the sale of cigarettes in Kentucky died from lack of a constitutional majority.

Go to Spencer for any kind of groceries you want and you will find them.

## Bust The Trusts.

Evils that have grown up under the past Republican administrations have taken deep root. A day, year, or even an administration, will not suffice to place the business interests of the country on a legitimate and natural footing. To make this a government for the whole people, in which no interest can legally grow fat by picking the bones of others, will require intelligent, careful, honest, fearless and conservative legislation. No interest should be jeopardized by hasty legislation. Congressman Harter's bill placing the products of trusts on the free list ought to have the support of every friend of the people, until those monster blood-suckers loosen their fangs from the throats of the people. Give them the alternative of either competition among themselves or with the whole world, and leave them free to choose.—Portsmouth Times.

## Regulating Party Nominations.

The plan which Gov. Werts, of New Jersey, is said to be devising for the application of the reformed method of balloting for the nomination of candidates is calculated to excite a great deal of interest outside of that State. Its purpose is to give the mass of the voters in each party the control of nominations, instead of leaving it to the "machines" organized by active and self-seeking politicians. The political machine is the inevitable result of leaving the work of nominating candidates to the voluntary and unregulated efforts of the voters. The plan upon which Gov. Werts is working contemplates, if we understand it aright, a primary election regulated by law, at which each voter may express his choice for candidates to be put in nomination by his party, with the same freedom and security with which he expresses his choice between candidates for office at the regular election.—New York Times.

## Oh, For Some Duplicates.

The Murray Ledger has found an old Kentucky magistrate who always made it a practice, regardless of the wealth, political influence, religion or social standing of any defendant brought before him, to fix the punishment at the highest notch allowed by law if the evidence showed the accused to be guilty. This exceptionally prize-worthy justice was an old man when people thought so old as to be childish, but in his childish simplicity he caused the fashion of observing the laws to become so popular in that district that, though the old man has gone to his reward, the fashion still obtains. There are very few of that sort.—C. J.

## We're the Haven of the Oppressed.

Should we annex the Sandwich group where could we end? Cuba might ask to be annexed, Ireland might ask to share its fortune with the great Republic, and even Great Britain itself might in time desire a similar result. This is startling. We might not object. But just now we do not want the earth.—Newark Advertiser.

The harvest of souls to the churches was no more agreeable than the harvest of dollars to the preachers at the Sam Jones revival in Hopkinsville. The Hopkinsville people raised \$5,500 by voluntary subscriptions, of which sum Jones and his assistant, Stewart, were paid \$2,000. Another \$400 went to Mr. Jones' orphan asylum. His singer, Mr. Krael, got a measly \$50, realizing about \$400 more from the sale of his hymn books. It took \$1,124 to pay other expenses of the meetings. The net tangible result to the churches was about \$500 members. Mr. Jones probably gets a higher price for his abuse from the people upon whom he testifies than any other man in the country.—Courier-Journal.

Joseph V. Dore, of Warsaw, Ill., was troubled with rheumatism and tried a number of different to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and left sure that others similarly afflicted would like to know what the remedy was that cured him. He stated for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by Louisia Drug Co.

Mr. C. F. Davis, editor of the Bloomfield, Iowa, Farmer, says: "I can recommend Chamberlain's Cough Remedy to all sufferers with colds and croup. I have used it in my family for the past two years and have found it the best I ever used for the purposes for which it is intended." 50 cent bottles for sale by Louisia Drug Co.

## Married.

Miss Della M. O. Burgess and Mr. J. M. Talbot were married last Wednesday at the home of the bride's father, Mr. John Burgess, 12 miles above here. It was intended that the ceremony should take place at 12 o'clock, but owing to the delay of the train it was about half an hour later. When all was in readiness the guests, about twenty-five in number, assembled in the parlor. At the sound of a march from the organ the contracting parties marched slowly into the room, preceded by Miss Mary McClure and M. F. Conley, and followed by Rev. John S. Cox. The party halted at the opposite side of the room and in a graceful and impressive manner the minister soon made the couple husband and wife. After receiving hearty congratulations from all, the happy pair led the way to the dining room, where a sumptuous repast, served in three courses, was spread before the guests. As a rule a wedding dinner is a toothsome affair and gets justice at the hands of the guests, and this occasion was no exception to the rule in either respect. By the time all had been served at dinner it was time for the toasts, and the party made their way to the railroad with the bride and groom, who had arranged for a trip down the river.

The bride is a young lady who is held in high esteem by all who know her, and the groom is an honest, industrious and deserving young man. The News extends congratulations.

## Double Tragedy

Yesterday morning near Savage Branch, about twenty-two miles below here, Shesler Quillen and James Ewing met on the railroad track, and, without a word, began shooting at each other. The latter was killed on the spot and the former fatally wounded. One shot only struck each, though several were fired. There was trouble of long standing between them, which had been renewed the evening before. Quillen was employed as a "track walker" and his wife was with him when the tragedy occurred. Ewing was about twenty years of age and unmarried.

## Louisa Schools Examination.

GRADE B—These grades are the result of an examination held on the work of the month of January. To say that half the farmers of the Sandy valley have meat enough of their own raising to supply their own tables during the season is placing a liberal estimate upon it. This is certainly a very uncomplimentary condition. The enormous amount of farm products shipped into this section each year is surprising, and we might say, startling. With the productive soil of our country the shipping ought to be done in the other direction. Until the masses of the farmers get to work in earnest and with a larger object in view than producing enough to live on through the year, we cannot hope for the healthy growth and substantial prosperity which is so desirable.

## An Eastern Kentucky Representative.

J. C. C. Mayo, of Johnson county, is mentioned for the additional position on the Board of World's Fair Commissioners for Kentucky, recently provided by the Legislature. His selection could not be otherwise than gratifying and beneficial to the whole Eastern portion of the State. His acquaintance with its resources, gained by a special study and exploration, peculiarly fit him for the place, and his untiring energy would insure a successful completion of the duties placed in his hands. No one in our end of the State, perhaps, is as well equipped to fill this position as Mr. Mayo. If politics is to figure in the appointment he is all right there, too, being a staunch, enthusiastic and fighting Democrat.

When men wear out they're men dead, too; They both are trod upon, and both Will tread on others, nothing loth.

Mr. Albert Florio of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and has hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one sufferer with a cough or cold since, I have recommended it to others, and all speak well of it." 50 cent bottles for sale by Louis Irving Co.
